

# What will a Labour District Council deliver for you?

*The last 12 years of austerity have been disastrous for local councils and our communities. A Labour-led Dover District Council will build a better, fairer district. We will stand up for our community.*

## Safe and Affordable housing

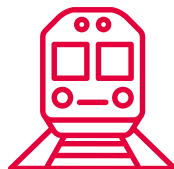

Labour will..

- Build **200** environmentally sound council homes per year over eight years - rented to those on the waiting list.
- Improve the **quality** of current housing stock maintained by DDC

## Keep the district moving

Labour will..

- Support and improve Port of Dover - the people of Dover district shouldn't be negatively impacted by Conservative chaos.
- Campaign to reinstate and increase bus routes across the District - these have been cut by the Tories at KCC.

## A better quality of life

Labour will..

- Form a multi-agency **network** to support people in need and homeless people.
- Reclaim town and village centres from anti-social behaviour.
- Bring waste collection services **back in-house** to increase responsiveness and control.

## Healthier communities

Labour will..

- Improve **air quality**, especially around the Port of Dover.
- Press the Government to increase **funding** for health and social care in our district and across East Kent, including support for people who are disabled, carers or with long-term health conditions.

## Modern governance

Labour will..

- Be honest and transparent with the public.
- Consult local people properly before decisions are made.
- Tell you how your money is being spent by Dover District Council.
- Challenge KCC and other authorities on decisions made affecting the district, and hold them to account.

**Vote Labour on May 4th  
for a better, fairer district**
